Examiner's Amendment

IN THE ABSTRACT

"The present invention is an" (line 1) has been deleted and replaced by - -An- -; and
"means" (line 2) has been deleted and replaced by - -system- -.

Allowable Subject Matter

Remaining claims 1 – 11 and 13 - 17 are allowed because the prior art of record fail to teach *an aircraft loaded with a flight computer and data corresponding to restricted airspace boundaries*, the aircraft being controllable by way of a command and control radio signal – *the flight data including software routines to loiter the aircraft over a predetermined area in the event of a loss of the command and the control radio signal*. Furthermore, the art of record fail to teach a communications relay system using unmanned aircrafts, comprising, among other limitations, a first unmanned and a second unmanned aircraft, wherein the second unmanned aircraft operates within wireless communication range of the first unmanned aircraft and for simultaneously flying outside the range of a based wireless communications station and for receiving ground based wireless communications station commands relayed through the first unmanned aircraft.
